

ANNUAL REPORT  
OF  
**THE MINES BRANCH**  
OF THE  
**Department of Lands and Mines**  
OF THE  
PROVINCE OF ALBERTA

**1936**

EDMONTON:  
PRINTED BY A. SHNITKA, KING'S PRINTER  
1937

EDMONTON, ALBERTA,  
March 5th, 1937.

TO THE HON. N. E. TANNER,  
*Minister of Lands and Mines.*

SIR:

I herewith submit the report of The Mines Branch for the year ending  
December 31, 1936.

Respectfully submitted,

ANDREW A. MILLAR,  
*Chief Inspector of Mines.*

ANNUAL REPORT OF THE MINES BRANCH FOR THE YEAR  
ENDING DECEMBER 31, 1936

(ANDREW A. MILLAR, *Chief Inspector*)

The output of coal produced from mines in the Province during the year was 5,696,375 tons, with a valuation of \$14,720,004.06, being an increase of 233,402 tons over the output of 1935.

In addition to the above tonnage, there were 2,603 tons produced by farmers under permit, for their own use, which tonnage has not been included in the total output. There has also been a considerable tonnage produced by farmers without either permit or lease; of this tonnage we have no record.

The disposition of coal during the year was as follows: 1,356,690 tons sold for consumption in the Province of Alberta; 2,000,284 tons sold for consumption in other Provinces of Canada; 27,397 tons sold for consumption in the United States; 1,969,560 tons sold to Railroad Companies for locomotive use; 19,472 tons used making briquettes; 97,353 tons used making coke; 149,600 tons used under colliery boilers; 6,912 tons used by colliery railroads; 56,239 tons put to stock; 80,203 tons put to waste. The above tonnages include coal lifted from stock and waste heaps, which is not included in the total output.

The coal produced by farmers under permits is not included in the total output, neither is the producing of such coal included in any tables, this information being given in a separate table, and is done in order that there should be no confusion of the regular statistics.

There were 305 mines in operation during the year, of which 17 were opened, 11 re-opened and 30 abandoned. In addition to the mines abandoned there were 28 mines temporarily closed, leaving 277 mines in operation as at December 31, 1936.

There were 411 persons examined during the year for certificates of competency as coal miners, of whom 365 were successful, making a total of 14,310 certificates issued to coal miners to December 31, 1936.

Samples of mine air were taken at several mines during the year by the inspectors, the samples being forwarded to the Chemistry Branch of the Department of Mines, Ottawa, for analysis, this being done in addition to testing the air with the Burrell & McLuckie gas detectors. In addition to using the Burrell & McLuckie gas detectors some of the mines have introduced the Ringrose Automatic Firedamp Alarm.

Samples of rock-dust, used for rock dusting the roadways in the bituminous mines, have been collected at intervals and forwarded to the Provincial Analyst to be tested for silica content.

Samples of coal have been collected and forwarded to the Industrial Research Department, University of Alberta, for analysis.

All fatal and serious accidents have been investigated by the inspectors, who also attended the inquests in their areas, this being in addition to the regular inspection of the mines.

The total number of fatal accidents were 11 as compared with 35 in 1935, 16 of these having been caused through an explosion which occurred at the mines operated by the Lethbridge Collieries, Limited, at Coalhurst, near Lethbridge.

There were 20 prosecutions instituted under The Coal-mines Regulation Act, of which 5 were owners, 8 officials, 5 miners, 1 car pusher and 1 farmer, the latter having worked without being the holder of a certificate as a coal miner.

There were 24,912,243 K.W.Hrs. of purchased electrical power used by the mines in the Province during the year, the distribution of purchased power used by mines in the various areas being as follows: Big Valley, 6,800 K.W. hrs. being purchased from the Union Power Company, Limited, of Drumheller, who also supplied 142,770 K.W. hrs. to mines in Carbon and 4,690,553 K.W. hrs. to mines in the Drumheller Area. Calgary Power Company, Limited, supplied electrical power to mines in areas as follows: Camrose, 5,080 K.W. hrs.; Edmonton, 1,312,069 K.W. hrs.; Gleichen, 1,881 K.W. hrs.; Lethbridge, 1,976,300 K.W. hrs.; Taber, 10,965 K.W. hrs. The East Kootenay Power Company, Limited, supplied 16,528,925 K.W. hrs. of electrical power to mines in the Crowsnest Area. The City of Medicine Hat supplied 132,000 K.W. hrs. to mines in the Redcliff Area. Two mines in the Coalspur Area exchanged 104,900 K.W. hrs. of electrical power, this being in addition to the power used and generated at each mine.

Two thousand seven hundred and eighty-three tons of steel supports have been used in the mines in the Crowsnest Area.

There were 9,956 men employed in mines during the month of December, being an increase of 265 men over the corresponding month in 1935.

There have been some changes during the year. The Pembina Colliery at Evansburg of the Royalties Oil & Share Corporation, Limited, which operated for a number of years, was abandoned and the plant dismantled.

The Imperial Mine at Coalhurst, operated by the Lethbridge Collieries, Limited, at which mine an explosion occurred in 1935, was also abandoned.

The Atlas and the Murray Mines have moved their plants to the South Side of the Red Deer River, the C.P.R. having built a bridge across providing railway connection. Both mines are now producing large tonnages.

Two other operations will possibly develop into large producers, viz., the New Monarch Mine operated by The Monarch Coal Mining Company, Limited, and the Cambrian Mine operated by the Cambrian Coal Company, Limited. The above mines have installed substantial plants with up-to-date machinery.

The Lethbridge Collieries, Limited, No. 8 Mine is now in operation, and largely replaces the No. 6 Mine at Lethbridge, also the Coalhurst Mine. This mine is equipped with two A.B. Universal coal-cutting machines, also three Sullivan Shortwall machines. These machines are electrically driven of the latest approved type. Steel construction is used in the head frame and tippie, and the screening plant is designed to give a wide range of sizes with a high standard of preparation. The main shaft hoist is an Ingersoll-Rand with Spiro cylindrical double drums, 6' to 9' in diameter. This is operated by a 500 h.p. electrical motor with automatic acceleration and is equipped with a Lilley control. At the airshaft a steam hoist has been installed, also a steel air-lock and head frame.

At the Shaughnessy Mine of the same company, a new Aerovane two-stage eight feet diameter fan has been installed in a concrete building, together with a concrete air-duct and air-lock. This fan delivers approximately 69,000 cubic feet of air per minute against a  $2\frac{1}{2}$ " water gauge and is driven by a 60 h.p. motor. The air-shaft has been enlarged and provision made for handling men and material in same.

In the Crowsnest Area the use of hard hats by the workmen is increasing at all the mines, some of which have approached 100%. In other districts progress

along similar lines also with safety shoes is being made. The workmen and the companies are to be commended in pushing this phase of accident prevention.

The Hillcrest Collieries, Limited, has improved its screening and storage facilities, also have installed a fan on the rock slope at Falls Creek.

At the West Canadian Collieries, Limited, mines at Greenhill and Bellevue considerable improvements have been made, the chief of which are the installation of dust collector systems in the tipples at both mines.

At the International Coal & Coke Company, Limited, Coleman, the improvement programme commenced in 1935 was continued. The new wash-house has been completed, also a warehouse 34' × 80', both buildings being of hollow tile with stucco finish. The snow shed of wood construction forming the approach from the mine to the tipple has been removed and replaced by steel and corrugated sheet iron. A concrete pump house has been built on D level and one new 1,000 U.S. gall. per minute electrically operated 350 h.p. pump installed. A 150 h.p. generator set was installed to generate D.C. current for trolley locomotive service. Increased storage facilities have been provided and new coal dryer of the Louvre type installed. Two thousand eight hundred feet of rock tunnel work has been done during the year for the purpose of improving haulage conditions and to provide for future development.

A new D.C. kilowatt generator has been installed at the mine operated by the McGillivray Creek Coal & Coke Company, Limited.

Some mines have installed additional coal screening and washing plants.

At the Mohawk Bituminous Mines, Limited, a new coal washing jig of the Vissac type with necessary de-watering screens and sludge tanks have been installed.

A new wet washing coal plant has been installed at the mine of the Coal Valley Mining Company, Limited, giving very satisfactory results, dealing with sizes from 2" to 5".

A briquetting plant has been installed at the mine operated by the Brazeau Collieries, Limited, at Nordegg. This plant has a capacity of 10 tons per hour. It is now in operation.

Some of the small mines in the Edmonton Area struck feeders of explosive gas and, naked lights being used, there were some ignitions, one of which caused a fatal accident. These mines have now installed electric lamps of the cap type.

The result of the inquiry conducted by Justice H. W. Lunney into the explosion which occurred in 1935 at the Coalhurst mine operated by the Lethbridge Collieries, Limited, is as follows: There were seventy-two witnesses examined. The conclusion of the Commissioner was that it was clearly a gas explosion caused by gas accumulating in a cave or overcast, that the gas came from old workings and that the original ignition occurred either at the edge of the old workings or in the new workings, the ignition being caused by an open flame or from a damaged lamp; of the latter there is some circumstantial evidence, as the finding of a broken lamp near the point of ignition corroborates this theory. He also found that the quantity of ventilation was well in excess of the minimum requirements, but calls attention to the necessity of having ample ventilation passing the ends of the old workings and the necessity of keeping doors closed, as it would appear from the evidence given that the door was at times left open for longer periods than absolutely necessary for the passage of men and horses.

The report of the Royal Commission respecting the Coal Industry of the Province of Alberta in 1935, which was conducted by the Rt. Hon. Sir Montague Barlow, Bt., P.C., K.B.E., LL.D., was presented early in the year and printed

for distribution. The following paragraphs will give two principal problems which emerged from the inquiry, also the issues covered by the inquiry as found affecting the coal industry:

"The two principal problems today before the coal industry in Alberta which emerge forcibly from the present investigation are, first, *Marketing*; as indicated by many witnesses, Alberta is rich in resources of easily mined coal—coal for which, especially under present conditions, it is difficult to find adequate markets; this is an urgent problem, and demands the immediate attention of the Government and of the industry; secondly, *Regulation*; evidence disclosed serious complaints of unsatisfactory and even chaotic conditions in the Alberta coal industry or some portions of it, due to excessive competition, price cutting, unfair practices, and so on.

"Happily, there were no broad and contentious issues disclosed by the evidence in the relations of capital and labour, but there were certain problems of more limited application which the inquiry has revealed, relating mainly to the welfare and social conditions of labour, such as Workmen's Compensation, Mine Rescue Work, Housing, conditions in Closed Camps, and so on, which also, as in the case of the marketing problem above indicated, can and should be dealt with without delay.

"This Report accordingly, while covering the issues indicated in the Royal Commission, is concerned mainly with Marketing, Regulation and Social problems of restricted application as above indicated."

During the year the Coal Trade Commissioner's Branch was placed under my supervision and the office in Edmonton was abolished. The branch in Toronto is being still maintained, with Mr. E. S. Clarry in charge.

# ANNUAL PRODUCTION OF COAL FROM MINES IN THE PROVINCE OF ALBERTA

The following table is taken from a report prepared by the Dominion Bureau of Statistics and published in "Coal Statistics for Canada" for the year 1935:

Calendar Year	Short tons	Value
1886	43,220	\$ 81,112
1887	74,152	157,577
1888	115,124	183,354
1889	97,364	179,640
1890	128,753	198,298
1891	174,131	437,243
1892	178,970	460,605
1893	230,070	586,260
1894	184,940	473,827
1895	169,885	382,526
1896	209,162	581,832
1897	242,163	630,408
1898	315,088	787,720
1899	309,600	774,000
1900	311,450	778,625
1901	340,275	850,687
1902	402,819	960,601
1903	495,893	1,117,541
1904	661,732	1,404,524
1905	931,917	1,993,915
1906	1,246,360	2,614,762
1907	1,591,579	3,836,286
1908	1,685,661	4,127,311
1909	1,994,741	4,838,109
1910	2,894,469	7,065,736
1911	1,511,036	3,979,264
1912	3,240,577	8,113,525
1913	4,014,755	10,418,941
1914	3,683,015	9,350,392
1915	3,360,818	8,283,079
1916	4,559,054	11,386,577
1917	4,736,368	14,153,685
1918	5,972,816	20,537,287
1919	4,933,660	18,205,205
1920	6,907,765	30,186,933
1921	5,909,217	27,246,514
1922	5,990,911	24,351,913
1923	6,854,397	28,018,303
1924	5,189,729	18,884,318
1925	5,869,031	20,021,484
1926	6,503,705	20,886,103
1927	6,934,162	21,982,058
1928	7,336,330	23,532,414
1929	7,150,693	22,928,182
1930	5,755,528	18,063,225
1931	4,564,015	13,342,675
1932	4,870,648	13,526,309
1933	4,718,788	12,307,258
1934	4,753,810	12,556,099
1935	5,462,894	14,094,795
Total	145,813,240	\$461,859,037

NOTE: Production quantities and values prior to 1919 refer to sales and colliery consumption. From 1919 to 1935 the mine output figures are given.

## THE MINES BRANCH

## ANNUAL CONSUMPTION OF COAL IN CANADA, 1902-1935

The following revised table is taken from the report issued by the Dominion Bureau of Statistics for the year 1935:

Year	Canadian*		Imported Coal Entered for Consumption†		Total Short tons	Per Capita
			From U.S.A.	From Great Britain		
	Short tons	%	Short tons	%		
1902	5,376,413	53.1	4,656,286	101,726	4,734,559	46.9
1903	6,005,735	47.3	6,520,931	184,593	6,678,450	52.7
1904	6,697,183	47.9	7,238,669	85,687	7,297,432	52.1
1905	7,032,661	49.4	7,733,738	89,500	7,825,466	50.6
1906	7,997,560	50.5	7,737,138	87,014	7,758,325	49.5
1907	8,617,352	45.0	10,598,697	54,225	10,549,503	55.0
1908	9,156,478	47.3	10,203,535	87,514	10,193,424	52.7
1909	8,913,376	47.9	9,805,253	61,671	9,711,826	52.1
1910	10,532,103	50.2	10,545,451	51,541	10,437,123	49.8
1911	9,822,749	40.5	14,510,129	48,963	14,424,949	59.5
1912	12,385,696	46.0	14,537,124	38,668	14,424,949	59.5
1913	13,450,158	42.6	18,145,769	37,825	18,132,387	57.4
1914	12,214,403	45.5	14,687,853	33,101	14,637,920	54.5
1915	11,500,480	48.1	12,450,796	15,098	12,406,212	51.9
1916	12,348,036	41.3	17,376,202	4,401	17,517,820	58.7
1917	12,313,603	37.2	20,848,009	9,451	20,810,132	62.8
1918	13,160,731	37.8	21,674,826	3,761	21,611,101	62.2
1919	11,611,168	40.3	17,292,913	344	17,236,269	59.7
1920	14,025,566	42.9	18,752,981	...	18,668,741	57.1
1921	12,715,734	41.1	18,300,081	1,591	18,258,387	58.9
1922	13,044,352	50.2	12,255,555	765,980	12,962,189	49.8
1923	15,070,962	41.8	20,417,239	572,570	20,967,971	58.2
1924	12,529,358	42.8	16,405,344	317,112	16,714,143	57.2
1925	12,125,280	42.6	15,744,957	604,117	16,331,971	57.4
1926	15,086,296	47.7	16,204,405	287,299	16,565,555	52.3
1927	15,944,983	46.7	17,266,434	907,220	18,177,303	53.3
1928	16,487,807	50.0	15,330,688	883,502	16,155,582	50.0
1929	16,387,461	48.0	16,780,452	17,724,132	17,724,132	52.0
1930	14,052,671	43.3	16,971,933	1,144,861	18,412,039	56.7
1931	11,682,779	47.7	11,793,798	987,442	12,828,327	52.3
1932	11,212,701	49.0	9,889,866	1,727,716	11,654,982	51.0
1933	11,456,273	51.5	8,865,935	1,942,875	10,864,962	48.5
1934	13,236,406	51.1	10,580,710	1,981,116	12,651,188	48.9
1935	13,306,303	53.1	9,618,518	1,822,500	11,735,835	46.9

\*The sum of Canadian coal-mine sales, colliery consumption, coal supplied to employees and coal used in making coke, etc., less the tonnage of coal exported.

†Includes small tonnages from countries other than Great Britain and the United States. Deductions have been made to take account of foreign coal re-exported from Canada and bituminous coal ex-warehoused for ships' stores.

The following table shows the quantity of coke imported into Canada during the years 1934, 1935 and 1936 through ports in the Provinces, compiled from information received from the Dominion Bureau of Statistics:

Ports in Province of	1934	1935	1936
Prince Edward Island			
Nova Scotia	8,361	8,805	7,234
New Brunswick	464	55	24
Quebec	27,177	13,371	25,777
Central Ontario	864,030	469,657	538,576
Head of Lakes	21,817	26,539	22,543
Manitoba	11,091	12,748	15,427
Saskatchewan			
Alberta			
British Columbia	1,893	1,751	3,277
Total	934,833	532,926	612,858

Imports of Coke into Canada, by Countries, 1934, 1935 and 1936:

United States	901,249	511,663	579,893
Great Britain	33,270	9,606	9,854
Germany	314	4,595	22,549
Poland		4,276	
Belgium		2,786	562
Total	934,833	532,926	612,858

Quantity of coal in tons, entered for consumption for each year since 1919, through ports in the Provinces of Manitoba, Saskatchewan, Ontario, Alberta, British Columbia and Yukon.

BITUMINOUS COAL

Year	Central Ontario	Port Arthur	Fort Frances	Fort William	Total Ontario	Manitoba	Saskat- chewan	Alberta	British Columbia & Yukon	Total Canada
1919	7,641,682	483,991	59,253	1,063,793	9,248,719	62,746	1,406	1,131	6,700	12,010,490

\*These figures show the total imports and not the tonnages entered for consumption.

- (a) Includes 11 tons imported in February, 50 tons in July and 6 tons in August into the Yukon Territory.
- (b) Includes 115,368 tons of bituminous coal from Great Britain, also 76 tons of bituminous coal from Newfoundland. Durnig 1929 there were 1,896 tons of lignite coal imported from the United States into Manitoba, 41 tons were imported from the United States into Saskatchewan, also 12,171 tons from the United States into British Columbia, making a total of 14,108 tons of lignite coal imported into Canada from the United States.
- (c) Includes imports into the Yukon Territory of 2 tons in April and 5 tons in June.
- (d) Consists of 13,199,076 tons imported from the United States, 146,199 tons imported from Great Britain and 33 tons imported from Newfoundland.
- (e) Includes imports into the Yukon Territory of 6 tons in March and 4 tons in July.
- (f) Consists of 10,224,982 tons imported from the United States, 122,298 tons imported from Great Britain.
- (g) Includes 728,438 tons of anthracite imported from Great Britain, 117,404 tons from Russia and 112 tons from Japan.
- (h) Consists of 2,955,954 tons imported from United States, 996,127 tons imported from Great Britain, 11,480 tons imported from Germany, 291,407 tons imported from Russia and 1,122 tons imported from French East Indies.
- (i) Consists of 2,236,423 tons imported from the United States, 876,364 tons imported from Great Britain, 60,762 tons imported from Germany and 4,592 tons imported from French East Indies.
- (k) Consists of 8,170,248 tons imported from the United States, 362,068 tons imported from Great Britain, and 2 tons imported from Newfoundland.
- (m) Consists of 1,685,532 tons imported from the United States, 1,399,086 tons imported from Great Britain, 52,189 tons imported from Germany, 650 tons imported from Belgium and 700 tons imported from the French East Indies.
- (n) Includes 4 tons imported in June, into the Yukon Territory.
- (o) Consists of 8,089,451 tons imported from the United States, 338,061 tons imported from Great Britain and 144 tons imported from Germany.
- (p) Consists of 1,429,829 tons imported from the United States, 1,605,776 tons imported from Great Britain, 6 tons imported from China and 2 tons imported from Alaska.
- (q) Includes imports into the Yukon Territory of 5 tons in May and 2 tons in October.
- (r) Includes imports into the Yukon Territory of 5 tons in May, 20 tons in June and 12 tons in September.
- (s) Includes imports into the Yukon Territory of 10 tons in July and 10 tons in October.
- (t) Consists of 9,936,759 tons imported from the United States, 331,517 tons imported from Great Britain, 50 tons imported from Germany, 24 tons imported from Newfoundland, 300 tons imported from Japan, 280 tons imported from Norway, and 15 tons imported from Sweden.
- (u) Consists of 9,168,428 tons imported from the United States, 380,645 tons imported from Great Britain, 43 tons imported from Alaska, 285 tons imported from Norway, 55 tons imported from Estonia, and 1 ton imported from Poland.
- (v) Includes imports into the Yukon Territory of 4 tons in April, 3 tons in May, 45 tons in June, 7 tons in October and 2 tons in November.
- (w) Consists of 1,670,085 tons imported from the United States, 1,454,521 tons imported from Great Britain, 205,045 tons imported from Germany, 67,220 tons imported from Belgium and 54,447 tons imported from French Indo-China.
- (x) Consists of 1,685,848 tons imported from the United States, 1,331,279 tons imported from Great Britain, 359,994 tons imported from Germany, 44,543 tons imported from Belgium, 122,572 tons imported from French Indo-China, 16,231 tons imported from Netherlands and 1,120 tons imported from China.

Imports of Coal into Ontario, Manitoba, Saskatchewan, Alberta, British Columbia, Yukon and Canada, by months during 1936 (short tons):

Month	Central Ontario	Port Arthur	Fort Frances	Fort William	Total Ontario	Manitoba	Saskatchewan	Alberta	British Columbia	Yukon	Total Man., Sask., Alta., B.C., and Yukon	Total Canada

Particulars with reference to the Coal-mining Industry in the Province of Alberta during the year ending December 31, 1936:

## SUMMARY OF STATISTICS

Tonnage stripped by farmers under domestic permits	2,603
Number of short tons of coal produced	5,696,375
Number of short tons of briquettes produced	21,015
Number of short tons of coke produced	65,239
Number of short tons of shale produced	24,588
Number of coal-mines in operation during the year	305
Number of shale pits in operation during the year	5
Number of mines opened during the year	17
Number of mines re-opened during the year	11
Number of mines closed during the year	28
Number of mines abandoned during the year	30
Number of mines in operation at December 31, 1936	277
132 mines or 43.28% of the total operating produced .91% of the output.	
81 mines or 26.56% of the total operating produced 2.95% of the output.	
14 mines or 4.59% of the total operating produced 1.71% of the output.	
45 mines or 14.75% of the total operating produced 20.61% of the output.	
18 mines or 5.90% of the total operating produced 22.7% of the output.	
4 mines or 1.31% of the total operating produced 8.8% of the output.	
7 mines or 2.29% of the total operating produced 21.68% of the output.	
2 mines or .66% of the total operating produced 8.32% of the output.	
2 mines or .66% of the total operating produced 12.32% of the output.	

## ANNUAL REPORT, 1936

17

Average number of persons employed below ground	5,940
Average number of persons employed above ground	2,170
Number of separate accidents causing loss of life	11
Number of deaths caused by accidents above ground	2
Number of deaths caused by accidents below ground	9
Number of serious accidents above ground	9
Number of serious accidents below ground	70
Number of slight accidents above ground	9
Number of slight accidents below ground	92
Total purchased electrical power (kilowatt hours)	24,912,243
Number of prosecutions instituted	20
Number of Provisional Certificates (overman) issued in 1936	162
Number of Certificates of Competency as Coal-miners issued in 1936	365
Number of Third Class Certificates issued in 1936	21
Number of Second Class Certificates issued in 1936	12
Number of First Class Certificates issued in 1936	3
Number of Mine Surveyor's Certificates issued in 1936	2
Total number of Third Class Certificates issued to Dec. 31, 1936	1,337
Total number of Second Class Certificates issued to Dec. 31, 1936	446
Total number of First Class Certificates issued to Dec. 31, 1936	241
Total number of Mine Surveyors' Certificates issued to Dec. 31, 1936	189
Total number of Interchange First Class Certificates issued to Dec. 31, 1936	5
Total number of Certificates of Competency as Coal-miners issued to Dec. 31, 1936	14,310

In the following tables the short ton of 2,000 lbs. is used in all cases.

Year	Output in tons for N.W.T. (Alta. & Sask.)	Output in tons for Alberta
1901	346,649	
1902	510,674	
1903	622,939	
1904	782,931	
1905		811,228
1906		1,385,000
1907		1,834,745
1908		1,845,000
1909		2,174,329
1910		3,036,757
1911		1,694,564
1912		3,446,349
1913		4,306,346
1914		3,821,739
1915		3,434,891
1916		4,638,604
1917		4,863,414
1918		6,148,620
1919		5,022,412
1920		6,908,923
1921		5,937,195
1922		5,976,432
1923		6,866,923
1924		5,203,713
1925		5,883,394
1926		6,508,908
1927		6,936,780
1928		7,334,179
1929		7,147,250
1930		5,755,911
1931		4,564,290
1932		4,870,030
1933		4,714,784
1934		4,748,848
1935		5,462,973
1936		5,696,375

## THE MINES BRANCH

PARTICULARS OF WORK DONE IN SHALE MINES IN THE  
PROVINCE DURING 1936

Output of shale in tons, used for making bricks .. . . .	24,588
Number of shifts worked .. . . .	8,825
Average number of men employed .. . . .	44
Explosives used (lbs.), 40% dynamite .. . . .	2,625
Number of shots fired, using fuse .. . . .	1,611
Total number of bricks made .. . . .	8,963,384
Total number of bricks put to stock .. . . .	805,844
Total number of bricks lifted from stock .. . . .	103,500
Bricks sold for use in: Alberta .. . . .	4,704,270
British Columbia .. . . .	670,810
Saskatchewan .. . . .	1,968,160
Manitoba .. . . .	620,300
Ontario .. . . .	75,000
United States .. . . .	13,500
Total .. . . .	8,054,040

PARTICULARS OF WORK DONE BY FARMERS STRIPPING COAL  
UNDER DOMESTIC PERMIT

Tonnage .. . . .	2,603
Number of days worked during the year .. . . .	100
Number of men employed during the year .. . . .	142
Total number of shifts worked .. . . .	1,129
Total number of permits issued .. . . .	58

The above coal was stripped for Domestic use only and not for sale.

## CLASSIFICATION OF OUTPUT DURING THE YEARS 1901 TO 1936 INCLUSIVE

Year	Domestic	Domestic and Bituminous	Sub-Bituminous	Bituminous	Anthracite	Coal used in coke product, m	Briquettes	Coke
*1901					14,742			
*1902		331,907			16,587			
*1903		494,087			5,185			
*1904		617,754			23,363			
*1905		759,568			43,653			
1906		972,686			235,597	71,292		46,640
1907	602,780			546,623	256,115	103,930	49,585	69,844
1908	639,335			939,295	256,115	112,887	36,261	73,782
1909	584,334			1,001,571	249,095	128,397	89,785	75,657

\*Includes output from Alberta and Saskatchewan. Previous to 1922 sub-bituminous was included in bituminous coal.

During the year 1909 a strike affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1911 a strike affecting all the larger mines in the Province, lasted for a period of eight months.

During the year 1917 a strike affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1919 a strike affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1922 a strike affecting all the larger mines in the Province, lasted for a period of six months.

During the year 1924 a strike affecting all the larger mines in the Province, lasted for a period of six and one-half months.

## ANNUAL REPORT, 1936

21

How the total output of DOMESTIC Coal from the Province was disposed of by areas during 1936:

Areas	Sold for Consumption in					Total Sales	Used under Colliery R.R.	Put to Stock	Put to Waste	Lifted from Stock	Lifted from Waste	Total output for year including waste put to stock and lifted from stock or waste.
	Alberta	British Columbia	Saskatchewan	Manitoba	Ontario	United States						
Ardley	22,714						925	406	78	99		29,216

1921 .....	96,674	284	341	127	761
1922 .....	40,417	112	361	41	986
1923 .....	107	69	1	9	12

NOTE: \*The table showing the number of men employed in the Anthracite Coal Field includes employees at the briquetting plant. There has been no anthracite coal produced since 1923.

During the year 1909, a strike, affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1911, a strike, affecting all the larger mines in the Province, lasted for a period of eight months.

During the year 1917 a strike, affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1919 a strike, affecting all the larger mines in the Province, lasted for a period of three months.

During the year 1922 a strike, affecting all the larger mines in the Province, lasted for a period of five months.

During the year 1924 a strike, affecting all the larger mines in the Province, lasted for a period of six and one-half months.

NOTE: Calculating the total per capita production for men employed underground, the tonnage mined from stripping pits was deducted and only the tonnage produced from mines was used.

It will also be noted that the tonnage used in the above and following tables does not include tonnage extracted under permit.

## Per Capita Production of Mines by areas:

## DOMESTIC COAL FIELD

Area	Gross tons of coal mined	Total average No. of men employed	Tons of coal mined per man employed	Average No. of men employed underground	Tons of coal mined per man employed underground

## ELECTRICITY

The rules for the installation and use of electricity in or about mines require a return to be made to the Department on or before January 15th of each year, giving size, type and any other particulars which may be required of electrical apparatus in use above and below ground. According to the returns received from the different mines, electricity was used in 79 different mines in 1936. A summary of these returns regarding the horse-power of electrical apparatus in use is given below:

Areas	No. of mines using Electricity	Horse-power of Electrical Apparatus in use		Total Horse-power
		Above Ground	Below Ground	
Ardley .....	.1	53	60	113

Total .....	51,995	9,350	19,427	17,785	32,318	71,704	36,327	47,393	70,144	29,824

## FATAL ACCIDENTS

Thomas Jackson, miner, age 46 years, on February 21st, in the mine operated by the McGillivray Creek Coal and Coke Company, Limited, at Coleman, caused through a fall of rock in pillar workings. He was digging a post hole in the floor at face of No. 1 Pillar, No. 9 Level, when a large piece of rock fell from the roof onto his head and back. Fractured skull, causing death within a few minutes.

George Zimich, miner, age 39 years, on March 30th, in the mine operated by the Empire Collieries, Limited, at East Coulee, caused through a fall of rock at face of a cross-cut. He was loading coal at the face of a cross-cut off No. 8 Room, No. 8 West Entry, when a large piece of rock fell from the roof onto his back. Fractured spine and left thigh, also all ribs broken, causing instant death.

Michael Belius, cager, age 34 years, on April 4th, in the mine operated by the Beverly Coal Company, Limited, at Beverly, caused through his falling down the shaft. He, along with two miners, was being hoisted up the shaft at the end of the shift. The regular hoistman had gone to the tippie, the overman doing the hoisting. The cage was lifted about two feet eight inches above the landing. Belius stepped off the cage before it stopped and, losing his balance, slipped and fell, dropping between the bottom of cage and top of shaft, falling to the bottom. Fractured spine, shoulder and arm, causing instant death. He should have remained on the cage until it stopped.

Steve Vargo, miner, age 57 years, on July 8th, in the mine operated by the Hillcrest Collieries, Limited, at Hillcrest, caused through a fall of coal in pillar workings. He, along with his partner, was working at the face of No. 3 Pillar, North Entry, when a piece of top coal dropped onto his shoulders. Crushed chest and ribs broken, which punctured his lungs. He died from the effects of the injuries 9½ hours later.

William Oakes, miner, age 61 years, on July 10th, in the mine operated by the West Canadian Collieries, Limited, at Blairmore, caused through a fall of coal. He, along with his partner, was working at the face of a pillar in No. 5 Cross-cut, No. 117 Room, taking down coal, when a large piece of coal fell on top of him. Broken ribs and crushed chest, also punctured lungs, causing internal bleeding, from the effects of which he died 7 hours later.

Harold Henderson, locomotive engineer, age 39 years, on July 27th, at the mine operated by Hillcrest Collieries, Limited, at Hillcrest, caused through electric shock. He was inside the locomotive boiler with an electric extension cord getting ready to wash out the boiler. The cord must have short circuited, and he received an electric shock from the effects of which he died.

Mike Matty, machine man's helper, age 35 years, on August 12th, in the mine operated by the Lethbridge Collieries, Limited, at Shaughnessy, caused through his being caught by the cutter chain of coal-cutting machine. He was helping on an electrically operated coal-cutter and attempted to move the jack bar whilst the machine was in operation. He slipped and fell onto the cutter chain. Severe lacerations and fracture of the right leg, from the effects of which he died 5½ hours later.

Joseph Kubasek, miner, age 42 years, on September 21st, in the mine operated by the West Canadian Collieries, Limited, at Bellevue, caused through a fall of coal in pillar workings. He was working in No. 116 Pillar, No. 6 Level, when a large piece of coal fell from the rib side, striking him and knocking him down. Compound comminuted fracture of right leg below knee, necessitating amputation. He died from shock whilst undergoing the operation four days later.

George Chalus, miner, age 52 years, on October 23rd, in the mine operated by the Midland Coal Mining Company, Limited, at Drumheller, caused through a fall of coal and rock. He was working at the face of No. 10 Room, No. 19 North off No. 3 West, and apparently was taking down top coal before putting up timber when some coal and rock fell on top of him. Fracture of occiput, also fractured pelvis, causing instant death.

Walter Gembal, miner, age 38 years, on October 28th, in the mine operated by John May and partner, near Edmonton, caused through an ignition of gas by open light. He, along with another workman, went down the shaft with the overman, who was making his inspection before commencement of work. He was going to the face before inspection was made,

and gas was ignited from his open light. He received severe burns to head, face, chest and arms, from the effects of which he died on November 1st.

Victor Stanish, box car loader engineer, age 47 years, on November 4th, at the mine operated by the Canmore Coal Company, Limited, at Canmore, caused through his being run over by railroad cars. He was crossing the railroad tracks in the mine yard, and apparently did not see an empty asphalt tank car which was being lowered on the track. The car struck him knocking him down with his legs across the rails, the wheels passing over his legs. Both legs badly crushed and internal injuries, from the effects of which he died 3½ hours later.

In addition to the above fatal accidents the following persons died as a result of being injured during the year 1935:

George Tolas, miner, age 35 years, on October 16th, 1935, in the mine operated by the Murray Collieries, Limited, at East Coulee, caused through a fall of rock. He was mining coal at the corner of No. 5 Pillar, No. 1 Room Entry, when a fall of rock occurred. When jumping back from a large piece he was struck between the shoulders by a smaller piece. Crushed first dorsal and fractured spinal column, from the effects of which he died May 8th, 1936.

Albert Stec, miner, age 31 years, on October 10th, 1935, in the mine operated by the Elgin Coal Company, Limited, at Drumheller, caused through a fall of rock. He was working at the face of No. 6 Room, 3rd West Entry, when a piece of rock from the roof fell onto his leg. Compound fracture and dislocation of the left ankle, from the effects of which he died May 28th, 1936.

Accidents as they occurred by months during the year 1936:

Months	Above Ground				Under Ground				Total Above and Under Ground
	Fatal	Serious	Slight	Total	Fatal	Serious	Slight	Total	
January .....						9	13	22	22
February .....		1	2	3	1	10	12	23	26

## LIST OF PROSECUTIONS INSTITUTED UNDER THE COAL-MINES REGULATION ACT DURING 1936:

Mine in which Contravention was Committed	Description of Defendant	Offence Charged	Result of Proceedings	Penalty	Costs
Red Bell Mine, Sundre	Overman	Working with an open light in safety lamp mine	Convicted	Fined \$5.00 and costs	\$ .50
Red Bell Mine, Sundre	Overman	Firing shots with fuse instead of electric battery	Convicted	Fined \$10.00 and costs	.50
Red Bell Mine, Sundre	Car pusher	Working with an open light in a safety lamp mine	Convicted	Fined \$5.00 and costs	1.00
Thomas Steegstra	Overman	Failed to see that airways were inspected at least once a week	Convicted	Fined \$10.00 or 14 days	2.00
Thomas Steegstra	Overman & Owner	Employed a person at the face who had no certificate	Convicted	Fined \$10.00 or 14 days	2.00
Thomas Steegstra	Farmer & Miner	Worked at working face without a certificate	Convicted	Fined \$10.00 or 14 days	2.00
Cadomin Coal Co., Ltd.	Miner	Did leave the matrip while it was in motion contrary to the writn orders of the Manager	Convicted	Fined \$20.00 or 30 days	4.25
Mountain Park Collieries, Ltd.	Miner	Did use coal dust for the purpose of tampering a shot in coal at face of No. 7 East entry No. 1 slope	Convicted	Fined \$20.00 or 30 days	1.75
Northern Coal Co., Ltd.	Mgr. & Overman	Allowed persons to work more than 8 hours	Convicted	Fined \$5.00	4.25
Northern Coal Co., Ltd.	Mgr. & Overman	Failed to have times men were underground truly reported in book	Convicted	Fined \$5.00	4.25
Hamilton & Vargo	Owner	Allowed men to go to work without the mine having been examined by an examiner	Convicted	Fined \$20.00 or 30 days	4.25
Hamilton & Vargo	Owner	Allowed men to go to work without the mine having been examined by an examiner	Convicted	Fined \$20.00 or 30 days	4.25
Hamilton & Vargo	Owner	Went to work without the mine having been examined by a competent person and report posted	Convicted	Fined \$1.00 or 30 days	.50
Hamilton & Vargo	Owner	Went to work without the mine having been examined by a competent person and report posted	Convicted	Fined \$1.00 or 30 days	.50
Hamilton & Vargo	Miner	Went to work without the mine having been examined by a competent person and report posted	Convicted	Fined \$1.00 or 30 days	.50
Hamilton & Vargo	Miner	Went to work without the mine having been examined by a competent person and report posted	Convicted	Fined \$1.00 or 30 days	.50
Hamilton & Vargo	Miner	Went to work without the mine having been examined by a competent person and report posted	Convicted	Fined \$1.00 or 30 days	.50
W. F. Miller	Owner	Went to work without the mine having been examined and without a report having been posted	Convicted	Fined \$1.00 or 10 days	4.25
John May	Overman	Did fail to report gas as required by Sec. 66, clause (h)	Convicted	Fined \$10.00 or 30 days	5.00
John May	Overman	Did fail to inspect mine before starting shift	Convicted	Fined \$45.00	

## THE MINES BRANCH

Number of Mines opened, abandoned, and re-opened according to Areas and Kind of Coal, during the year:

In addition to the above, Mr. James A. Richards, 11009 89th Avenue, Edmonton, is acting in the capacity of General District Inspector of Mines, Telephone No. 32662.

## BOARD OF EXAMINERS

The Board during the year 1936 consisted of the following:

As representing:

- (a) The Mine Inspectorate:  
Andrew A. Millar, Chief Inspector of Mines.
  - (b) Managers:  
Norman Fraser, Robert Livingstone.
  - (c) Working Miners:  
William Lammie, Evan Morgan.
- Secretary:  
James A. Richards.

Examinations during the year were held as follows:

For third-class at the following centres: Drumheller, May 5, 6, 7, 8 and 9; Edmonton, May 5, 6 and 7; Cadomin, May 5; Blairmore, May 5; Lethbridge, May 5, 6 and 7; Grande Prairie, May 7 and 8; Nordegg, May 1; Canmore, May 5.

For first and second-class on June 3, 4 and 5 at Blairmore, Cadomin, Drumheller and Edmonton.

For mine surveyors' on June 5 at Blairmore, Edmonton and Drumheller.

Twelve candidates presented themselves for examination for first-class certificates, of whom three were successful.

Twenty-two candidates presented themselves for examination for second-class certificates, of whom eight were successful. In addition, two candidates presented themselves for supplementary examination, of whom one was successful. This examination is in accordance with Rule 9b of the Rules Governing Examinations for second-class certificates.

Forty-two candidates presented themselves for examination for third-class certificates, of whom twenty were successful.

Four candidates presented themselves for examination for mine surveyors' certificates, of whom two were successful.

The successful candidates are in the list following herewith:

List of Names of Holders of First-Class Certificates Issued by the Government of the Province of Alberta during the year 1936:

Name	Address	Cert. No.	Date of Issue
Barclay, William	Drumheller	11	31- 7-36
Burton, John T.	Edmonton	13	8- 8-36
Goodwin, William	Bellevue	12	4- 8-36

List of Names of Holders of Second-Class Certificates Issued by the Government of the Province of Alberta during the year 1936:

Brown, John D. B.	Mountain Park	55	4-11-36
Edwards, Mark	East Coulee	50	7- 8-36
Edwards, Oliver E.	Cadomin	53	12- 8-36
Fawcett, Elmer S.	Cardiff	51	7- 8-36
Heyworth, Ernest S.	Edmonton	45	2- 6-36
Hillary, Joseph	Bellevue	49	7- 8-36
Kennedy, Joseph	Willow Creek	47	31- 7-36
Moran, James	Edmonton	46	28- 7-36
Mayoh, Daniel	East Coulee	48	7- 8-36
Parker, Jack	Cardiff	52	6- 8-36
Rear, Albert E.	Coleman	56	15-12-36
Strickland, Thomas	Three Hills (Duplicate)	54	16-10-36

## THE MINES BRANCH

List of Names of Hlders of Third-Class Certificates Issued by the Government of the Province of Alberta during the year 1936:

Name	Address	Cert. No.	Date of Issue
Aitchison, Peter	Lethbridge	230	22- 6-36
Adamson, Alexander	Perbeck	231	22- 6-36
Broderick, Gideon	Canmore	221	10- 3-36
Budesheim, August E.	Dimsdale	238	20- 8-36
Chemotti, Guiseppe	Lethbridge	239	25- 8-36
Douglas, Peter S. Jr.	Cadomin	233	22- 6-36
Garner, E. Denison	Canmore	222	3- 6-36
Hilbert, Waddington	Mercoal	240	13-10-36
Johnson, Martin R.	Rumsey	234	22- 6-36
Lewis, Fred	Mountain Park	227	22- 6-36
Lister, Arthur L.	Cadomin	232	22- 6-36
Miller, Douglas	Edmonton	236	4- 7-36

number of mines, classified according to output	57
mines, number of men employed at December 31st, 1936, in	58
number of men employed by districts classified	
as to occupation	58
total men employed each month by districts	60
number of days worked each month by districts	66
total number of shifts worked	70-71
total number of shifts worked above and below	
ground each month	68-69
quantity of timber used by districts	72
quantity of explosive used in coal	74
tons of coal produced per pound of explosive used in	75
shots fired in coal	76
miss-fires in blasting coal	77
tons of coal produced per accident	83
accidents classified according to cause	88-89
accidents classified according to mines	92-93
amount of purchased electrical power used in	
Drumheller	6

## E

Edmonton District, amount of purchased electrical power used in	6
Electric Lamps, Edison type	73
Oldham type	73
Wico type	73
Ceag type	73
Wolfe type	73
Electricity, number of mines using	80
number of machines operating and tonnage produced by	80
tons produced per electrical horse-power	80
amount of purchased power used	6-17
Employees, average number above ground	17
average number below ground	17
Examinations, results of	97
Explosives, blasting coal, domestic coal field	74
blasting coal, bituminous coal field	74
blasting coal, sub-bituminous coal field	74
quantity used blasting rock	78

## F

Fatal accidents, above ground	17
below ground	17
Farmers' Domestic Coal Permits, output, men employed, shifts worked	18
First Class Certificates, issued in 1936	97
Fort Frances, importation bituminous coal, 1919 to 1936, inclusive	12
Fort William, importation bituminous coal, 1919 to 1936, inclusive	12
Fort Francis, monthly importation bituminous coal, 1936	14
monthly importation anthracite coal, 1936	14
Fort William, monthly importation bituminous coal, 1936	14
monthly importation anthracite coal, 1936	14

## I

Introduction	5-8
Importations, anthracite, 1919 to 1936, inclusive	12
bituminous coal, 1919 to 1936, inclusive	12
monthly bituminous coal, 1936	14
monthly lignite coal, 1936	15
monthly anthracite, 1936	14
total, 1936	15
coke, 1934 to 1936, inclusive	11
Imported coal, annual consumption of	10
Inspectors, names of and districts	96

## L

Lamps, number of Wolfe type	73
number of Edison electric type	73
number of Ceag electric type	73
number of Oldham electric type	73
number of Wico electric type	73
number of Koehler type	73

## M

Manitoba, importation of bituminous coal	12
monthly importation of lignite coal, 1936	15
monthly importation of bituminous coal, 1936	14
monthly importation of anthracite coal, 1936	14
bricks shipped from shale mines to	18
total amount of domestic coal sold for consumption in	20
total amount of sub-bituminous coal sold for consumption in	20
total amount of bituminous coal sold for consumption in	20
domestic coal, lump, for consumption in	43
domestic coal, mine run, for consumption in	44
domestic coal, nut, for consumption in	44
domestic coal, slack, for consumption in	44
sub-bituminous coal, lump, for consumption in	45
sub-bituminous coal, mine run, for consumption in	45
sub-bituminous coal, nut, for consumption in	45
sub-bituminous coal, slack, for consumption in	45
bituminous coal, lump, for consumption in	46
bituminous coal, mine run, for consumption in	46
bituminous coal, nut, for consumption in	46
bituminous coal, slack, for consumption in	46
Men, average number employed above ground	17
average number employed below ground	17
employed at shale mines	18
total number employed at December 31st, 1936, in each field	59
employed domestic field classified according to occupation and districts	58
employed sub-bituminous field classified according to occupation and districts	59
employed bituminous field classified according to occupation and districts	59
accidents, per 1,000 men employed	82
total employed domestic field each month by districts	60

	Page
total employed sub-bituminous field each month by districts	61
total employed bituminous field each month by districts	61
Mineral production of Alberta, 1935 and 1936	16
Mine air samples	5
Mines, number classified according to output	57
number in operation	5-16-96
number opened	5-16-96
number re-opened	5-16-96
number abandoned	5-16-96
number of shale in operation	16
Mine Surveyors, certificates issued in 1936	98
N	
Number of men employed above ground (average)	16
below ground (average)	16
O	
Officials, number prosecuted	6-95
Ontario, total importations bituminous coal, 1919 to 1936, inclusive	12
total importations central, 1919 to 1936, inclusive	12
monthly importation bituminous coal, 1936	14
monthly importation anthracite, 1936	14
total and central importations, 1936	15
total amount of domestic coal sold during each month for consumption in	24
total amount of sub-bituminous coal sold during each month for consumption in	25
total amount of bituminous coal sold during each month for consumption in	26
domestic lump and mine run coal for consumption in	47
domestic nut and slack coal for consumption in	47
sub-bituminous lump coal for consumption in	48
sub-bituminous slack coal for consumption in	48
sub-bituminous nut coal for consumption in	48
bituminous mine run coal for consumption in	48
bituminous nut coal for consumption in	49
bituminous slack coal for consumption in	49
Operators, number prosecuted	6-95
Output, North West Territories (Alberta and Saskatchewan), 1901 to 1936, inclusive	17
classification of, 1901 to 1936, inclusive	19
comparison by districts, 1932 to 1936, inclusive	28
comparison of accidents for years 1915 to 1936, per 1,000,000 tons	82
P	
Per capita consumption of coal in Canada	10
Port Arthur, importations bituminous coal, 1919 to 1936, inclusive	12
importations monthly bituminous coal, 1936	14
importations monthly anthracite coal, 1936	14
Production domestic coal by districts, 1932 to 1936, inclusive	28
sub-bituminous coal by districts, 1932 to 1936, inclusive	28
bituminous coal by districts, 1932 to 1936, inclusive	28
per capita, total from 1906 to 1936, inclusive	62
per capita, domestic, from 1910 to 1936, inclusive	62
per capita, sub-bituminous, from 1922 to 1936, inclusive	63
per capita, bituminous, from 1910 to 1936, inclusive	63
per capita, anthracite, from 1910 to 1936, inclusive	64
per capita, domestic field by districts, 1936	65
per capita, sub-bituminous field by districts, 1936	65
per capita, bituminous field by districts, 1936	65
of coal per electrical horse-power	80
total, 1935 and 1936	5-17-20-28
total disposition by provinces, 1935 and 1936	5-20
Prosecutions for contravention of The Coal-mines Regulation Act, number of	6-95
Provisional certificates issued, number of	17

## R

Railroads, total coal sold for consumption by	5-20-23
total amount of sub-bituminous coal sold for consumption	
by	20-22-25-30
total amount of bituminous coal sold for consumption	
by	20-22-26-31
Report of board of examiners	97
Rock, explosives used in coal-mines for blasting	78
number of shots fired for blasting	79
number of miss-fire shots in blasting	79

## S

Safety lamps, number of Wolfe and Koehler type	73
Sales, total by provinces, 1915 to 1936, inclusive	27
total domestic by districts during each month	24
total sub-bituminous by districts during each month	25
total bituminous by districts during each month	26
Saskatchewan, importations bituminous coal, 1919 to 1936, inclusive	16
monthly importations bituminous coal, 1936	14
monthly importations, anthracite coal, 1936	14
bricks shipped from shale mines to	18
total amount of domestic coal sold for consumption in	20
total amount of sub-bituminous coal sold for consumption	
in	20
total amount of bituminous coal sold for consumption in	20
domestic coal sold as lump for consumption in	39
domestic coal sold as mine run for consumption in	40
domestic coal sold as nut for consumption in	40
domestic coal sold as slack for consumption in	41
sub-bituminous coal sold as lump for consumption in	41
sub-bituminous coal sold as mine run for consumption in	41
sub-bituminous coal sold as nut for consumption in	42
sub-bituminous coal sold as slack for consumption in	42
bituminous coal sold as lump for consumption in	42
bituminous coal sold as mine run for consumption in	42
bituminous coal sold as nut for consumption in	43
bituminous coal sold as slack for consumption in	43
Second class certificates, issued in 1936	97
Serious accidents, above ground	17
below ground	17
Shale, total production 1936	18
number of mines in operation	5-16
Shots, fired blasting coal in each field in districts	76
miss-fires in blasting coal in each field by districts	77
fired in blasting rock in coal mines	79
miss-fires blasting rock in coal mines	79
Stock, total coal put to	5-20-23
total coal lifted from	5-20-23
domestic coal put to	20-24-53
sub-bituminous coal put to	20-25-53
bituminous coal put to	20-26-53
domestic coal lifted from	20-24-55
sub-bituminous coal lifted from	20-25-55
bituminous coal lifted from	20-26-56
Sub-bituminous coal, disposition of total output by districts	22
disposition of total output by months	25
production by districts from 1932 to 1936, inclusive	28
production by months during 1936	30
total output by districts during each month	30
total amount sold for consumption in Alberta	20-22
total amount sold to railroads	20-22
sold as lump for consumption in Alberta	34
sold as mine run for consumption in Alberta	34
sold as nut for consumption in Alberta	34
sold as slack for consumption in Alberta	35
sold as lump for consumption in British Columbia	37

	Page
sold as mine run for consumption in British Columbia	37
sold as nut for consumption in British Columbia	38
sold as slack for consumption in British Columbia	38
sold as lump for consumption in Manitoba	45
sold as mine run for consumption in Manitoba	45
sold as nut for consumption in Manitoba	45
sold as slack for consumption in Manitoba	45
sold as lump for consumption in Ontario	48
sold as nut for consumption in Ontario	48
sold as slack for consumption in Ontario	48
used under colliery boilers	51
used by colliery railroads	52
put to stock	53
lifted from stock	55
put on the waste heap	54
lifted from the waste heap	56
number of mines classified according to output	57
mines, number of men employed at December 31st, 1936	59
number of men employed by districts classified as to occupation	59
total men employed each month by districts	61
per capita production for years 1922 to 1936, inclusive	63
per capita production for year, 1936	65
number of days worked each month by districts	67
number of shifts worked each month by districts	70-71
quantity of timber used by districts	72
quantity of explosives used in coal	74
tons of coal produced per pound of explosive used	75
number of shots fired blasting coal	76
number of miss-fire shots in blasting coal	77
coal, tons produced per accident	83
mines, accidents classified according to cause in	90
districts, accidents classified according to mines in	93
Summary of statistics	16-17
T	
Third class certificates, issued in 1936	98
Timber, quantity used in the domestic coal field	72
quantity used in the sub-bituminous coal field	72
quantity used in the bituminous coal field	72
U	
United States, total amount of domestic coal sold for consumption in 20-21-24	
total amount of sub-bituminous coal sold for consumption in	20-22-25
total amount of bituminous coal sold for consumption in	20-22-26
domestic coal, lump, sold for consumption in	49
domestic coal, nut, sold for consumption in	49
domestic coal, slack, sold for consumption in	50
bituminous coal, lump, sold for consumption in	50
bituminous coal, mine run, sold for consumption in	50
bituminous coal, nut, sold for consumption in	50
bituminous coal, slack, sold for consumption in	51
total coal sold for consumption in 1936	20
V	
Value of annual output of Alberta coal, 1886 to 1935, inclusive	9
W	
Waste heap, total coal put on	5-20-23
total coal lifted from	5-20-23
domestic coal put on	20-21-24-54
